CERTIFIED MAIL

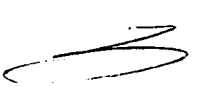

Dear Mr Chapman:

Re: Modification to Operating Permit #2700010001 for Intermountain Power Service Corporation

The Division of Air Quality initiated a modification of Operating Permit #2700010001 for the Intermountain Generation Station site on April 10, 2002 (application #2002018). The action was classified as an administrative amendment (initiated by DAQ), and processed in accordance with R307-415-7e. The purpose of the modification was due to issuance of enhanced AO DAQE-049-02 for modification of main boilers to increase heat input

Please review the enclosed copy of the permit thoroughly to assure that you and all affected staff members at your organization are aware of its requirements. If you have any questions regarding this permit, please contact me at (801) 536-4086, or by e-mail at jhe@deq.state.ut.us.

Sincerely,

Jennifer He
Environmental Engineer
Operating Permit Section
